Subject: Follow-up call re CA UIC Program

Teresa and George –

Thank you for taking the time yesterday to share thoughts on how to improve our collective coordination efforts going forward under the recently agreed upon plan for addressing the compliance issues of the CA UIC program. Attached are the 2 letters we discussed on the call. The first letter is the State plan as proposed on Feb 6th (I believe you already have this and are familiar with it). The second letter is our letter which aligns with the general schedule of the State's proposal but also contains additional items. The schedule attached to this letter is

probably the most useful piece to focus on from a planing perspective. I would like to set up the follow-up call we discussed having in a couple of weeks. Looking at calendars here, the 25th from 3-4, the 26th from 3-4 and the 27th anytime would work. Thanks again.

Michael Montgomery
